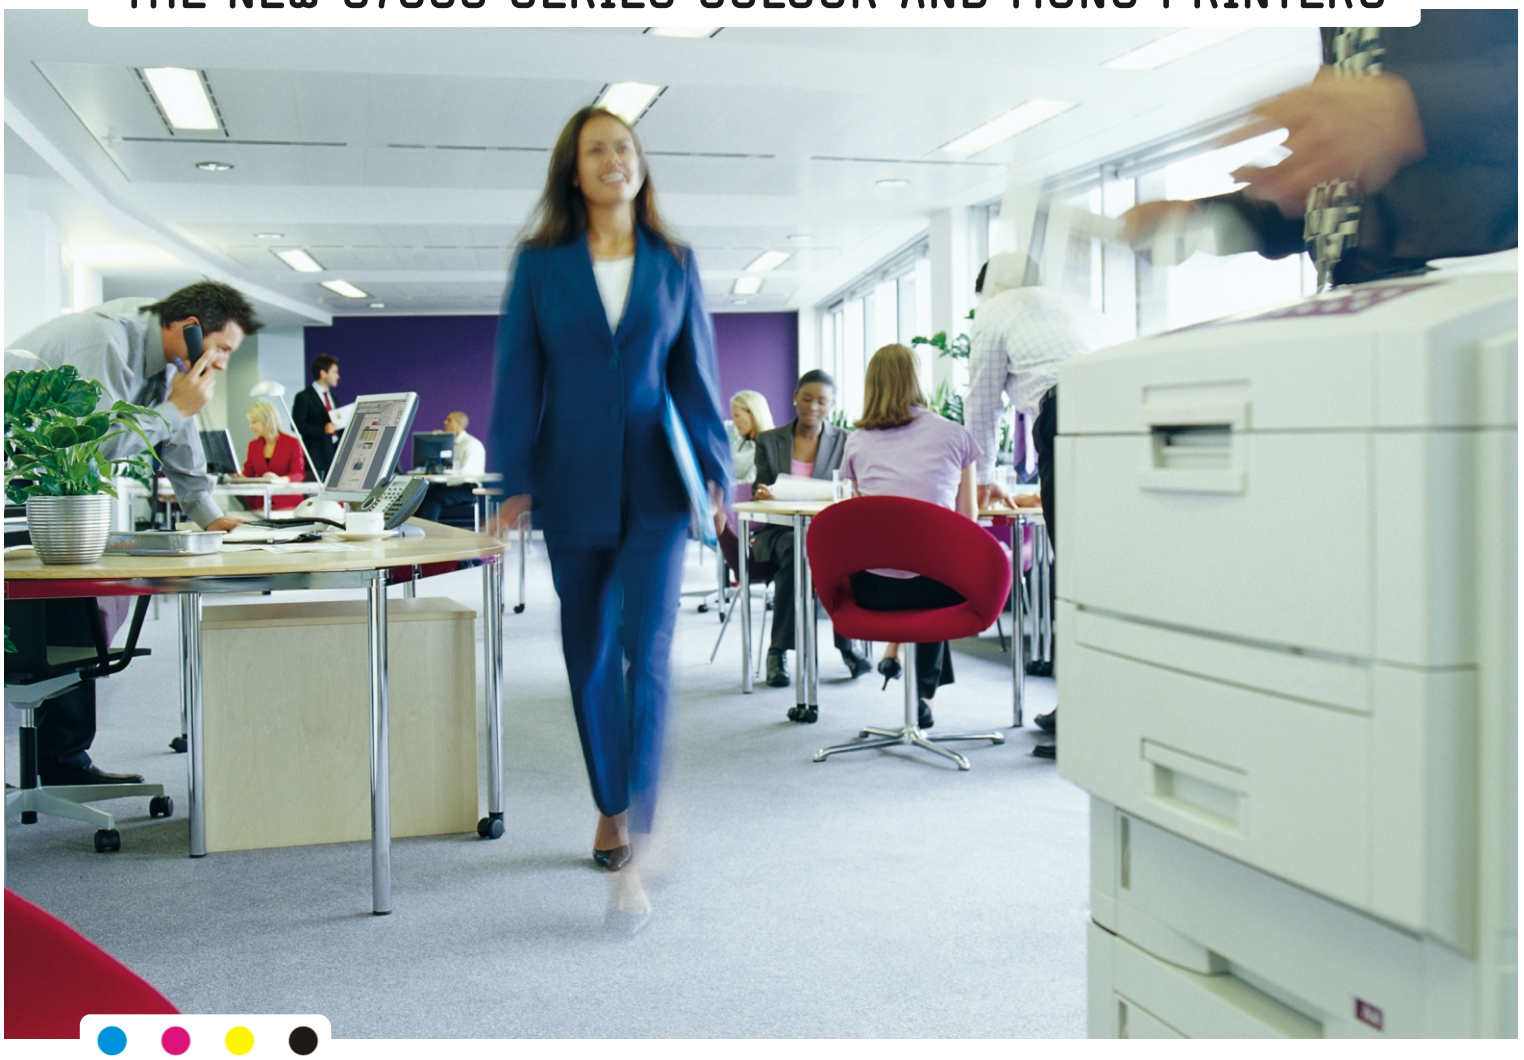
THE NEW C7000 SERIES COLOUR AND MONO PRINTERS



- C7350n
- C7350dn
- C7350dtn

THE NETWORK PRINTERS THAT GIVE MEDIUM TO LARGE WORKGROUPS THE POWER TO PRODUCE EXCEPTIONAL RESULTS

The whole department can rely on the new C7000 Series to produce effective printed communications in both colour and mono — quickly, easily and cost-effectively. Networked as standard, the C7350 delivers an impressive 24 pages per minute (ppm) colour and 26ppm mono. There are three models within the Series; the C7350n with network as standard; the C7350dn with network and duplex as standard; and the C7350dtn with network, duplex, second tray and cabinet as standard. So whatever your medium to large workgroup wants to do, they'll have a printer that gives them the power and the freedom to do it in-house, do it in minutes, and above all, do it themselves. We call this **Chromability™ — in-house colour printing made easy, only from Oki.**
